A Warm Welcome to Audio Show Deluxe 2025

Welcome to a world where the pinnacle of home entertainment systems and refined luxury converge—welcome to Audio Show Deluxe 2025.

This is no ordinary audio show; it is an immersive celebration of exquisite home audio and the art of high-fidelity listening experiences, set against a backdrop of quiet luxury.

This year, we have curated a selection of the world's most prestigious audio brands, bringing together the very best in high-end home entertainment from the UK and beyond. Each exhibitor has been carefully chosen to reflect the pinnacle of craftsmanship, innovation, and sonic perfection, ensuring that every guest experiences audio at its absolute finest.

Adding to the indulgent nature of the event, we are delighted to welcome internationally acclaimed musical artists Clare Teal and Hans Theessink, whose captivating performances will enrich your weekend with exceptional musical artistry. Their presence underscores our commitment to delivering an

event that is as much about emotional connection to music as it is about state-of-the-art technology.

At Audio Show Deluxe, we take pride in maintaining the event's intimate and boutique nature, ensuring that every visitor enjoys a relaxed and unhurried exploration of the world's finest audio. You are not just an attendee—you are a valued guest!

Our exhibitors are eager to share their knowledge and passion with you, answering any questions you may have about their exceptional offerings. Additionally, our dedicated team is on hand to assist you in navigating the event, ensuring that your time with us is nothing short of extraordinary.

Welcome to Audio Show Deluxe 2025—where sound meets sophistication, and your experience is everything. Because "not all luxury is quiet luxury".

Kris, Stuart, and the Audio Show Deluxe Team

12:00 - Presentation by Brandon Lauer, Director of Sales and Marketing at Wadax Introducing Wadax's revolutionary Studio Player digital source. [Monza]

1:00pm - Mike Valentine. The history of recording [Vale]

2.00pm - Matthias Luck. Brinkmann and LowSwing records.

2:30pm - The IGx Infrasonic Generator – Redefining Low Frequency Sound Wilson Benesch Sales Director Luke Milnes will present the IGx Infrasonic Generator, Wilson Benesch's take on subwoofer design. Discussing the advantages of the push-pull design and how the company eliminated the woofer from the sub to create a unique low frequency sound generator.

3:00pm - Live Music – Clare Teal and Dave Archer Duo [Bentley's]

Wilson Benesch Design Director, Craig Milnes - 11:30am | 2:30pm [Melbourne]

Mike Valentine – Chasing The Dragon – Saturday 11:00am | 4:30pm | Sunday 11:00am | 1:00pm [Vale]

Reema - LowSwing records – Saturday 2:00pm [Vale]

Izumi Saito – Luxman – Product Expert from Japan [Woodcote]

Sound bath relaxation sessions during the show [Syndicate 12]

🔑 Visit Syndicate 12 to book your session

Saturday: 12:00 | 12:30 | 13:00 | 13:30 | 14:00 | 14:30 | 15:00 | 16:00 | 16:30

Sunday: 12:00 | 12:30 | 13:00 | 13:30 | 14:00

Outside of the sound bath sessions, experience high-quality music played through the Franco Serblin Accordo Goldberg loudspeakers and Copland Amplifier—an opportunity to enjoy both immersive sound and an exceptional sound system throughout the show.

In addition to the sessions at the show, Kasia offers private sessions at her Wellbeing House in West Wimbledon and international retreats, helping clients experience deeper relaxation, clarity, and overall wellbeing.

Immerse yourself in sound, and discover a world of wellbeing.

Chord company presentation [Woodcote]

Morning session: “Unlocking Streaming Performance”

Anthony will be demonstrating the impact of network optimisation on digital audio performance, featuring:

- English Electric EE1 & New EE1 Plus – Showcasing how network isolation reduces interference and enhances clarity in streamed audio.
- Streaming cable comparisons – A direct comparison of streaming cables from across the range, highlighting their effect on sound quality.

Afternoon session: “The Power of Silence”

This session focuses on reducing noise and improving system performance through grounding and power solutions, including:

- New Chord Company PhonoARRAY – Demonstrating our new ARRAY technology designed primarily for turntables.
- PowerHAUS Products – Exploring the benefits of our high-performance power distribution blocks.
- PowerARRAY – Showcasing how our PowerARRAY plug and PowerARRAY Professional products improve overall system dynamics.

Artists

HANS THEESSINK Live on Saturday at 5pm [Bentley Suite]

With a career spanning over 50 years, 30 albums, and countless global performances, Hans has rightfully earned his place as a true "international blues treasure" (Blues Revue, USA).

Known for his sonorous baritone voice and masterful guitar work, Hans Theessink brings a rich blend of Blues, Folk, Roots, and Gospel to the stage, captivating audiences with his heartfelt and emotionally charged performances. Whether playing solo or alongside other musicians, Theessink delivers music that resonates on a deep level, with his unique slide and fingerpicking style taking listeners on a journey through the roots of American blues.

With endorsements from legends like Bo Diddley, who hailed him as "One helluva guitar player," and a reputation as one of the world's top acoustic blues performers, Hans is sure to deliver a show that will be talked about for years to come. His live performances have earned rave reviews, with critics praising his ability to blend power and subtlety, from feather-light string work to blistering blues rhythms.

Theessink remains a driving force in the world of acoustic blues. His latest album, *PAY DAY*, is a collaborative masterpiece with American singer/songwriter Big Daddy Wilson, showcasing Hans' timeless ability to blend deep-rooted musical traditions with contemporary flair.

Don't miss this rare opportunity to see one of the finest acoustic blues musicians in the world at Audio Show Deluxe 2025.

CLARE TEAL and DAVE ARCHER Live on Sunday at 3pm [Bentley Suite]

Clare Teal, a multi-award-winning vocalist and popular broadcaster, teams up with renowned jazz guitarist Dave Archer to deliver a performance filled with rich musicality and charm. Known for their captivating live shows, the duo brings a unique blend of timeless jazz standards and warm, engaging storytelling, offering audiences an intimate and unforgettable experience.

Their set will span over 100 years of music, drawing from both the Great American and British Songbooks. Audiences can expect to hear jazz-infused classics from the likes of Cole Porter, Duke Ellington, and Rodgers and Hart, alongside more modern selections from artists such as Sting, Van Morrison, and Ed Cobb. Teal's reverence for the legends of jazz—Ella Fitzgerald, Anita O'Day, Peggy Lee, and more—shines through in a set that is as joyous as it is diverse.

This exclusive live performance, along with all other musical performances at Audio Show Deluxe, is free for show attendees to enjoy.

UK Show Premieres

SwanSong Audio

Location: S22, S23

The headphone Ethereal is named after its large sound stage and soaring heights. Hybrid technology combines 3D printing, porting, and wood to create a non headphone sound. The neutral tonality is created by combining 3D printing with walnut and a maple inlay.

PEAK Sonora

Location: Wellington A

The Sonora is a slim elegant two-way floor standing design, utilising a passive bass radiator. It has the same compact footprint as a bookshelf speaker on a stand, however because of the perfectly built highly inert cabinet along with the passive bass radiator, it offers a much deeper and more precise bass response, with remarkable dynamics and musical balance.

Wadax Studio Player

Location: Monza

Boyer Audio is introducing Wadax's revolutionary Studio Player digital source.

Piega Coax 811

Location: Wellington B

The Premiere of Piega Coax 811 Speakers at Henley Audio.

Viva Audio Solista

Location: Indianapolis

World Premier for Viva Audio Verticale Speakers with Viva Audio Solista 22W Class A SET integrated amplifier making its UK debut. Additionally, we will showcase the innovative Viva Audio Numerico DAC, enhancing the digital front end of your audio experience.

Storgaard & Vestskov

Location: S9

We're proud to present Gro and Frida in a special, hand-painted, one-of-a-kind British Racing Edition—a tribute to speed, precision, and luxury craftsmanship. Strap in for Sound that Matters.

Meet us in Room S9 to experience it.

Wilson Benesch

Location: Melbourne

Wilson Benesch proudly presents the revolutionary GMT® One System Turntable, which has been hailed as the 'Turntable of the Year' by The Absolute Sound. This prestigious recognition underscores its exceptional design and unparalleled performance, setting a new standard in the world of audio excellence.

Innuos

Location: Magny Cours

The ZENith Next-Gen will be making its UK Audioshow debut at Audio Deluxe. Visit the Magny-Cours suite to experience our high-end music server and streamer featuring cutting-edge hardware, a versatile modular design and controlled by the exclusive and in-house developed Innuos Sense software..

Luxman E-07X Phono Stage

Location: Woodcote

Discover the latest advancements in phono equalizer amplifiers, designed to expertly elevate your analog playback experience.

Martin Logan Impression ESL 11A

Location: Syndicate 21

Anatech Distribution is thrilled to present the Martin Logan Impression ESL 11A speakers at the UK Show for the very first time. Experience exceptional sound quality and elegant design that will elevate your audio experience to a new level. Don't miss your chance to be among the first to enjoy these remarkable speakers!

Oneiros Loudspeakers

Location: Syndicate Cope

We've taken our ideas, dreams and concept designs, and together with our Motorsport colleagues in what has become TEAM ONEIROS™, we have fashioned them into the design that would eventually lead to one goal - the ONEIROS™ speaker that you see before you making it's UK and European Show debut.

The AUDES DT-3600 Power Conditioner

Location: Chapel

The AUDES DT-3600 Power Conditioner is making its UK Premier at the show. Audes Power conditioners became our standout discovery of 2024, after we were given an opportunity to listen at our studio.

Raidho Acoustics TD3.2

Location: Catalunya

Decent Audio presents Raidho Acoustics TD3.2, a superlative medium-sized floorstander from the current flagship TD (Tantalum Diamond) range and of course, utilizing the most up-to-date version of their world-famous true ribbon tweeter.

Driving Sounds

Driving Sounds and FOUR MASTERS Car Audio – For music lovers on the move.

Driving Sounds Magazine and FOUR MASTERS Car Audio, will be flying the flag for vehicle audio upgrades at the Audio Deluxe Show 2025.

Car audio upgrades need to be heard to be believed these days. The best way to experience them is to sit in a car for a one-on-one demonstration, which is precisely what our presence at the show is designed to deliver. Sit in one of our demonstration vehicles and discover just what is possible in a car today.

Utilising the skills of a highly experienced installation network, FOUR MASTERS Car Audio can design, quote for, and then deliver an exceptional sonic experience tailored to your listening preferences for your daily drive.

Even if you are simply curious, please feel free to ask for a demonstration where one of our staff members will talk you around a perfect car audio system and play you some music from our huge list of tunes demonstrating what we do.

Following your demonstration, you will receive the latest copy of Driving Sounds Magazine. FOUR MASTERS Car Audio customers often like to talk about their car audio experience, and Driving Sounds allows them to do this.

A Porsche 911 997 featuring an Audison Thesis 2-way component set will be available for demonstration. These are run actively from an Audison Voce 5.1K 5-channel amplifier. Thanks to a tidy A-pillar build, the tweeters have been placed on-axis.

Hi-Res
AUDIO
WIRELESS

THESIS

Driving Sounds: www.drivingsounds.co.uk

The Audison Voce AV 5.1K amplifier is a top-rated product for audiophile installations. Two Class A channels for tweeters ensure that the high-frequency drivers receive the pure signal they deserve. A pair of Class AB channels drives the woofers, leaving the monoblock Class D amplifier with a mighty 1000 watts RMS (into 2ohms) available for driving two 10" subwoofers.

An Audison bit B-Con is included for hi-res Bluetooth streaming from any device containing an LDAC codec.

Whether we like it or not, many people like big bass in their cars. A pair of Audison Prima APS 10 D 10" subwoofers dominate the rear. These slim, high-excursion subs are ideal for building into small enclosures.

A similarly equipped Porsche 911 964 will also be on our stand. This iconic installation has been with us for some years and always impresses with its pinpoint accuracy and space-saving sub bass from a single 8" subwoofer mounted under the dashboard. As it is a classic car, little has been done to the interior of the vehicle. The imaging and accuracy of the stereo image are second to none, while musical engagement is guaranteed, whatever the genre.

These systems deliver an incredible improvement in quality, and both are worth a listen. Be warned: Standard manufacturer equipment will never sound good after hearing either of these cars, regardless of what badge the car manufacturer has put on the speaker grilles.

inch (CLS) XStat electrostatic panels to generate mid and treble frequencies and dual 8-inch PoweredForce Forward woofers for the low end – a hybrid design with astounding results.

The ESL11As will be controlled by Anthem Room Correction (ARC) and served by the brand-new Bluesound NODE ICON—a streamer with high performance that belies its modest price tag. The NODE ICON supports 24-bit/192kHz playback and delivers pristine audio quality using a twin-mono DAC, low-noise PSU circuitry and balanced outputs.

The show provides a unique opportunity to hear this combination of prestigious audio products, an experience that should not be missed.

AUDEN DISTRIBUTION

Location: Hockenheim, Syndicate 10
Web: www.audendistribution.co.uk
Email: info@audendistribution.co.uk

In Hockenheim suite, the system will feature Hegel, EgglestonWorks, Lufonic, Audiomica, and MusicWorks.

On Digital to analogue duty from the Innuos Statement is the newest Hegel product, the D50 DAC. Purely a DAC, and it sounds superb.

Hegel P30A is an excellent pre-amp, maintaining signal purity to a level not many other pre-amps can match, this will form a formidable partnership with a pair of H30A power-amps.

Lufonic R3 will be the analogue source, fitted with the 12-inch tonearm.

EgglestonWorks Viginti loudspeakers encapsulate the brand ethos in a relatively compact form and certainly deliver the performance to match the amplification. We love these loudspeakers and always enjoy letting them stretch their legs at this show.

Connecting all these together will be Audiomica consequence cables, capable of letting the music flow without upsetting the timing or nuances of the performance.

In Syndicate S10 we have two Hegel products, H600 integrated amplifier partnered with the Viking CD player. This system will be used by the guys from Audiomica to demonstrate the different cables they offer.

Power blocks and cables for both systems will be from MusicWorks, a brand we have used for more than a decade. AcouPlex isolation products, also from MusicWorks will be in use throughout the systems.

AUDIO GROUP DENMARK

Location: Syndicate 20
Web: www.audiogroupdenmark.com

Ansuz, Aavik, Børresen and Axxess is founded by Lars Kristensen and Michael Børresen. These four brands share a common DNA and audio philosophy that has evolved from many years of collaboration. At the end of 2020, Audio Group Denmark was established acting as the umbrella company for all four brands.

We will be playing on the Aavik U-188 and Børresen c1 speakers, with a complete Ansuz A3 loom.

AUDIO NOTE (UK)

Location: Syndicate 8
Web: www.audionote.co.uk
Email: micky.seaton@audionote.co.uk

Based on our award winning Meishu Tonmeister 300B Single Ended Triode integrated amplifier, the Konzertmeister takes the design to full Level 4 performance and component quality. The Meishu Phono Konzertmeister is a Pure Class A Singled Ended valve amplifier that uses the highly regarded 300B directly heated triode valve, producing a level of performance that is radically superior to the vast majority of current designs. The circuit is a beautiful example of elegant simplification, something that could only be realised thanks to our ability to create extremely closely matched transformers in-house, and having our own supply of custom resistors, in-house made foil capacitors and custom made electrolytic capacitors. These allow us to have extremely tight control over the performance and voicing of the complete signal path, from input to output, something that is simply beyond the possibilities of manufacturers who have to rely on 'off the shelf' components. The result is an amplifier that maintains the legendary musicality, midrange magic and glorious tonal colour of the Meishu Tonmeister, whilst bringing new and previously unheard levels of information retrieval and dynamic expression.

The Meishu Konzertmeister includes the following components: - In house designed and manufactured, copper / silver wired Double C Core UHiB interstage and output transformers. In

Email: info@audiophysic.com

Nothing But Music

Loudspeakers that you cannot hear, disappearing in the music, is the mission of Audio Physic. We are bringing music to life, making it physically tangible. With Audio Physic, music is not a simple reproduction. Every piano stroke, violin stroke, or guitar riff is vividly clear and creates a live goosebumps feeling. The living room becomes a concert hall, a rock stage, and a festival. How is that possible? The linchpin is our deep understanding of materials and structures and our years of experience.

Hand made in Germany

Every loudspeaker is manufactured by hand in Brilon, Sauerland. This makes us one of the last loudspeaker manufacturers in Germany. Rooted in Brilon in the Sauerland region, many of our suppliers come from the surrounding

area. Regionality and sustainability are part of our DNA.

Beyond technical innovation, all our efforts at Audio Physic serve one purpose: music. Nothing But Music.

Decent Audio will be bringing a selection of its wide portfolio to the 2025 Audio Deluxe show including pre/power or pre/monoblock amplifiers from Advance Paris, Audio Analogue, Ayre Acoustics and SPL. The system will have a traditional CD source with upto the minute DAC technology.

These electronics will be topped off by a UK first for the Raidho Acoustics TD3.2 Loudspeaker, a superlative medium sized floorstander from the current flagship TD (Tantalum Diamond) range and of course utilising the most upto date version of their world famous true ribbon tweeter. All parts of the system will be connected by using cables from Dutch specialist Van den Hul to confirm their reputation for achieving that elusive balance of a sweet, natural and detailed sound.

A selection of special offers will also be available over the weekend.

Definitive Audio

Location: Chapel
Web: www.definitiveaudio.co.uk
Email: shout@definitiveaudio.co.uk

The AUDES DT-3600 Power Conditioner is making its UK Premier at the show. Audes Power conditioners became our standout discovery of 2024, after we were given an opportunity to listen at our studio. We knew almost immediately that we had a game changer – a rare product that is a hand in glove fit with our portfolio and will provide a great many customers with a genuinely affordable alternative to the battery PSU. With a range of 5 models starting at £2700 up to £10,000 in a size that is easily accommodated, the AUDES products provide a solid foundation for any system.

Driving Sounds Magazine

Location: Entrance
Email: Info@drivingsounds.co.uk
Website: www.drivingsounds.co.uk

Driving Sounds Magazine is thrilled to attend this year's Audio Show Deluxe. Driving Sounds is the UK's only magazine dedicated to aftermarket car audio upgrades. We are showing two cars as examples of the audio excellence that our partner, FOUR MASTERS Car Audio, can create. We invite you to have a personal demonstration of these fantastic cars. If you have never heard an upgraded car audio system, or maybe not even considered it, then both of these cars are well worth a listen.

We often encounter people who rarely get the opportunity to enjoy music in their own homes yet spend considerable time in their cars for leisure or work.

FOUR MASTERS Car Audio can upgrade any vehicle and return it to stock at the end of its ownership. The equipment can then be used again in a new installation. Find us at the entrance from the Car Park.

Henley Audio

Location: Wellington B
Web: www.henleyaudio.co.uk
Email: sales@henleyaudio.co.uk

Henley Audio will be presenting a flagship system consisting of luxury components from European Audio Team (E.A.T.), Ortofon, HiFi Rose, Musical Fidelity and Piega during Audio Show Deluxe. So come and experience the wonders of high-mass turntables, sophisticated streaming technologies, first-class amplification and Swiss-made ribbon tweeters, all in one system that's sure to impress.

RESOLUTION SYSTEMS
HARS
25TH
ANNIVERSARY

We are proud to celebrate 25 years of innovation excellence in the pursuit of significantly lowering the noise floor of high-performance audio systems. Our passion for enjoying the full magic of a musical performance has driven us to develop a wide range of products that will allow your system to reach its full potential.

HRS products and our complete system approach will preserve the information, timing, decay structure, and spatial information of your favorite music in the same manner originally created by the artist.

Thank you for your continued support of our mission to build exceptional audio systems.

casing the iconic loudspeaker in this stunning conceptual finish.

Just one of four pairs in the world, this is an exclusive demo of this prototype colour option which was designed in collaboration with Lotus to mark their successful partnership to bring high-end audio to the new generation of Lotus models.

The speakers will be paired with the H600 integrated power amp and the H30 power amp from Hegel, an Innuos STATEMENT Next-Gen server, and cabling from The Chord Company. The KEF Team looks forward to welcoming you to the Nurburgring Suite.

KOG Audio

Location: Stowe
Web: www.kogaudio.com
Email: info@kogaudio.com

Our prime philosophy is to provide premium customer service and support whilst building strong, lasting relationships with our suppliers, dealer

network, and end customers. We are a non-corporate, small, but highly dedicated team – and at our core, we are music lovers; inspired by sound and focused on bringing the very best in current high-end audio experiences.

We are highly selective about the brands that we will deal with and invest considerable time in the evaluation process. The products have to stand out beyond the norm, sound exceptional, be durable, instil pride of ownership and offer value for money. When we take on a brand, you can rest assured that we have done all the due diligence in the background.

We are looking forward to seeing you in the Stowe Suite on the first floor.

Music Works

Music Works

Location: Wellington A
Web: www.musicworks-hifi.co
Email: sales@musicworks-hifi.co

MusicWorks is a manufacturer and distributor of some of the world's most musical high end audio components.

Originally we started as a manufacturer of system energy management components - power products, the source of energy in a system, and isolation products to stop the energy compromising system performance. The recent introduction of MusicWorks AcouPlex TM has been a real breakthrough in isolation.

In recent years we have been delighted to offer Accuphase electronics, and more recently PEAK loudspeakers, offering coherent high end musical performance. The Aardvark network isolation components we import offer dramatic reduction in the effect of network noise on streaming systems.

Accuphase have been manufacturing distinctive high end audio electronics for 50 years in Yokohama, Japan. Classic looks, unchanged over the years, belie the advanced electronic engineering inside. Innovations such as AAVA "resistorless" analogue volume controls enable amplifiers to sound optimal at any volume level, are a one of many unique features.

PEAK Consult have been manufacturing high performance loudspeakers in a low key operation in Denmark for over 20 years. Five years ago the excellence of PEAK cabinetry was recognised by Wilfried Ehrenholz (ex owner of Dynaudio) and Lennart Asbjorn Jensen who wanted to create the very highest performance loudspeakers, available in small volumes. To this end a complete new range of loudspeakers has been launched to huge acclaim.

ONEIROS™

Location: Copse
Web: www.oneirosaudio.com
Email: info@oneirosaudio.com

ONEIROS. TURNING A DREAM INTO REALITY WHY...
Why must all loudspeakers look like traditional furniture?

Why should they be rectangular boxes that don't naturally work acoustically? Moving into modern materials and techniques liberates the design process, frees the imagination, enables the creation of new natural forms, aesthetics and vision. Creating an innovative process enabled us to use genuine composite technolo-

gies giving us immersive sonics from a sculptured organic shape.

Choice of materials, lateral thinking and access to ground-breaking F1 and Motorsport Valley expertise in the area around Silverstone and Whittlebury Park are the keys that have unlocked ONEIROS.

We've taken our ideas, dreams and concept designs, and together with our Motorsport colleagues in what has become TEAM ONEIROS™, we have fashioned them into the design that would eventually lead to one goal - the ONEIROS™ speaker that you see before you making its UK and European Show debut.

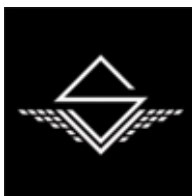

Puritan Audio Labs

Location: Walkway

Web: www.puritanaudiolabs.com
Email: sales@puritanaudiolabs.com

Our aim throughout is to produce the ultimate mains purifier solutions and to present these to the consumer with a level of meticulous build quality that means that an investment in a Puritan product is an investment that will be enjoyed for decades to come.

Storgaard & Vestskov

Location: Syndicate 9

Web: www.sv-audio.com
Email: info@sv-audio.com

Discover Danish loudspeaker craftsmanship redefined. Storgaard & Vestskov is a family-founded high-end audio brand with full in-house production, allowing us to push the boundaries of both sound and design.

After years of searching for the purest listening experience—honest, uncolored, and deeply engaging—we set out to bring emotion back to music. That journey led to the birth of Storgaard & Vestskov.

Experience Frida in a striking metallic piano gloss with a matte black front, and join us for an uncompromising listening session. Already honored with an Editor's Choice award this year, Frida delivers sound as it was meant to be heard.

SwanSong Audio

Location: Syndicate 22, 23

Web: www.swansongaudio.com
Email: info@swansongaudio.com

The Sound of Inner Peace – Wellbeing Through Sound Healing

Step into a world where sound unlocks the key to your wellbeing. At Audio Show Deluxe, Kasia Richter, a holistic psychologist and wellbeing strategist, invites you to experience the transformative power of sound healing. Whether you're looking to reduce stress, regain clarity, or restore inner balance, Kasia's approach helps you clear mental fog and find a deep sense of relaxation.

In a sound bath, you will lie comfortably while being immersed in the soothing vibrations of gongs, hang pans, and other instruments. These sounds activate the body's natural healing processes, helping to lower cortisol levels, reduce tension, and promote deep relaxation. The result is a profound reset, leaving you feeling refreshed, focused, and recharged. Whether you're new to sound healing or experienced, the experience is designed to restore balance and calm.

Wilson Benesch

Location: Melbourne
 Web: www.wilson-benesch.com
 Email: info@wilson-benesch.com

As the leading British high-end audio design and manufacturing house, Wilson Benesch returns in 2025 with an exclusive UK debut. At the heart of this presentation is the groundbreaking GMT® One System Turntable, recently crowned 'Turntable of the Year' by The Absolute Sound. Lauded by Michael Fremer as delivering "the best sound I've heard from

vinyl records of every musical genre", this world-first innovation redefines vinyl playback, with all systems—including the international patent-pending OMEGA Direct Drive, GRAVITON® Armwand, TESSELLATE Ti Cartridge, all control systems, and the R1 Carbon Rack—designed and manufactured entirely by Wilson Benesch. Wilson Benesch will also present its flagship Eminence Loudspeaker to UK audiences for the first time. Completing the system, courtesy of UK distributor High End by Oz, will be a Ypsilon front end comprising power and pre, plus phono stage and DAC. The Wilson Benesch-Ypsilon combination is well known for its excellent synergy; now seen in systems across the world, it delivers an effortlessly musical and authentic listening experience. Renowned for cutting-edge technology, precision engineering, and unmatched craftsmanship, Wilson Benesch continues to set the standard for British high-end audio. Experience it first hand in the Melbourne Suite.

Yorkshire AV

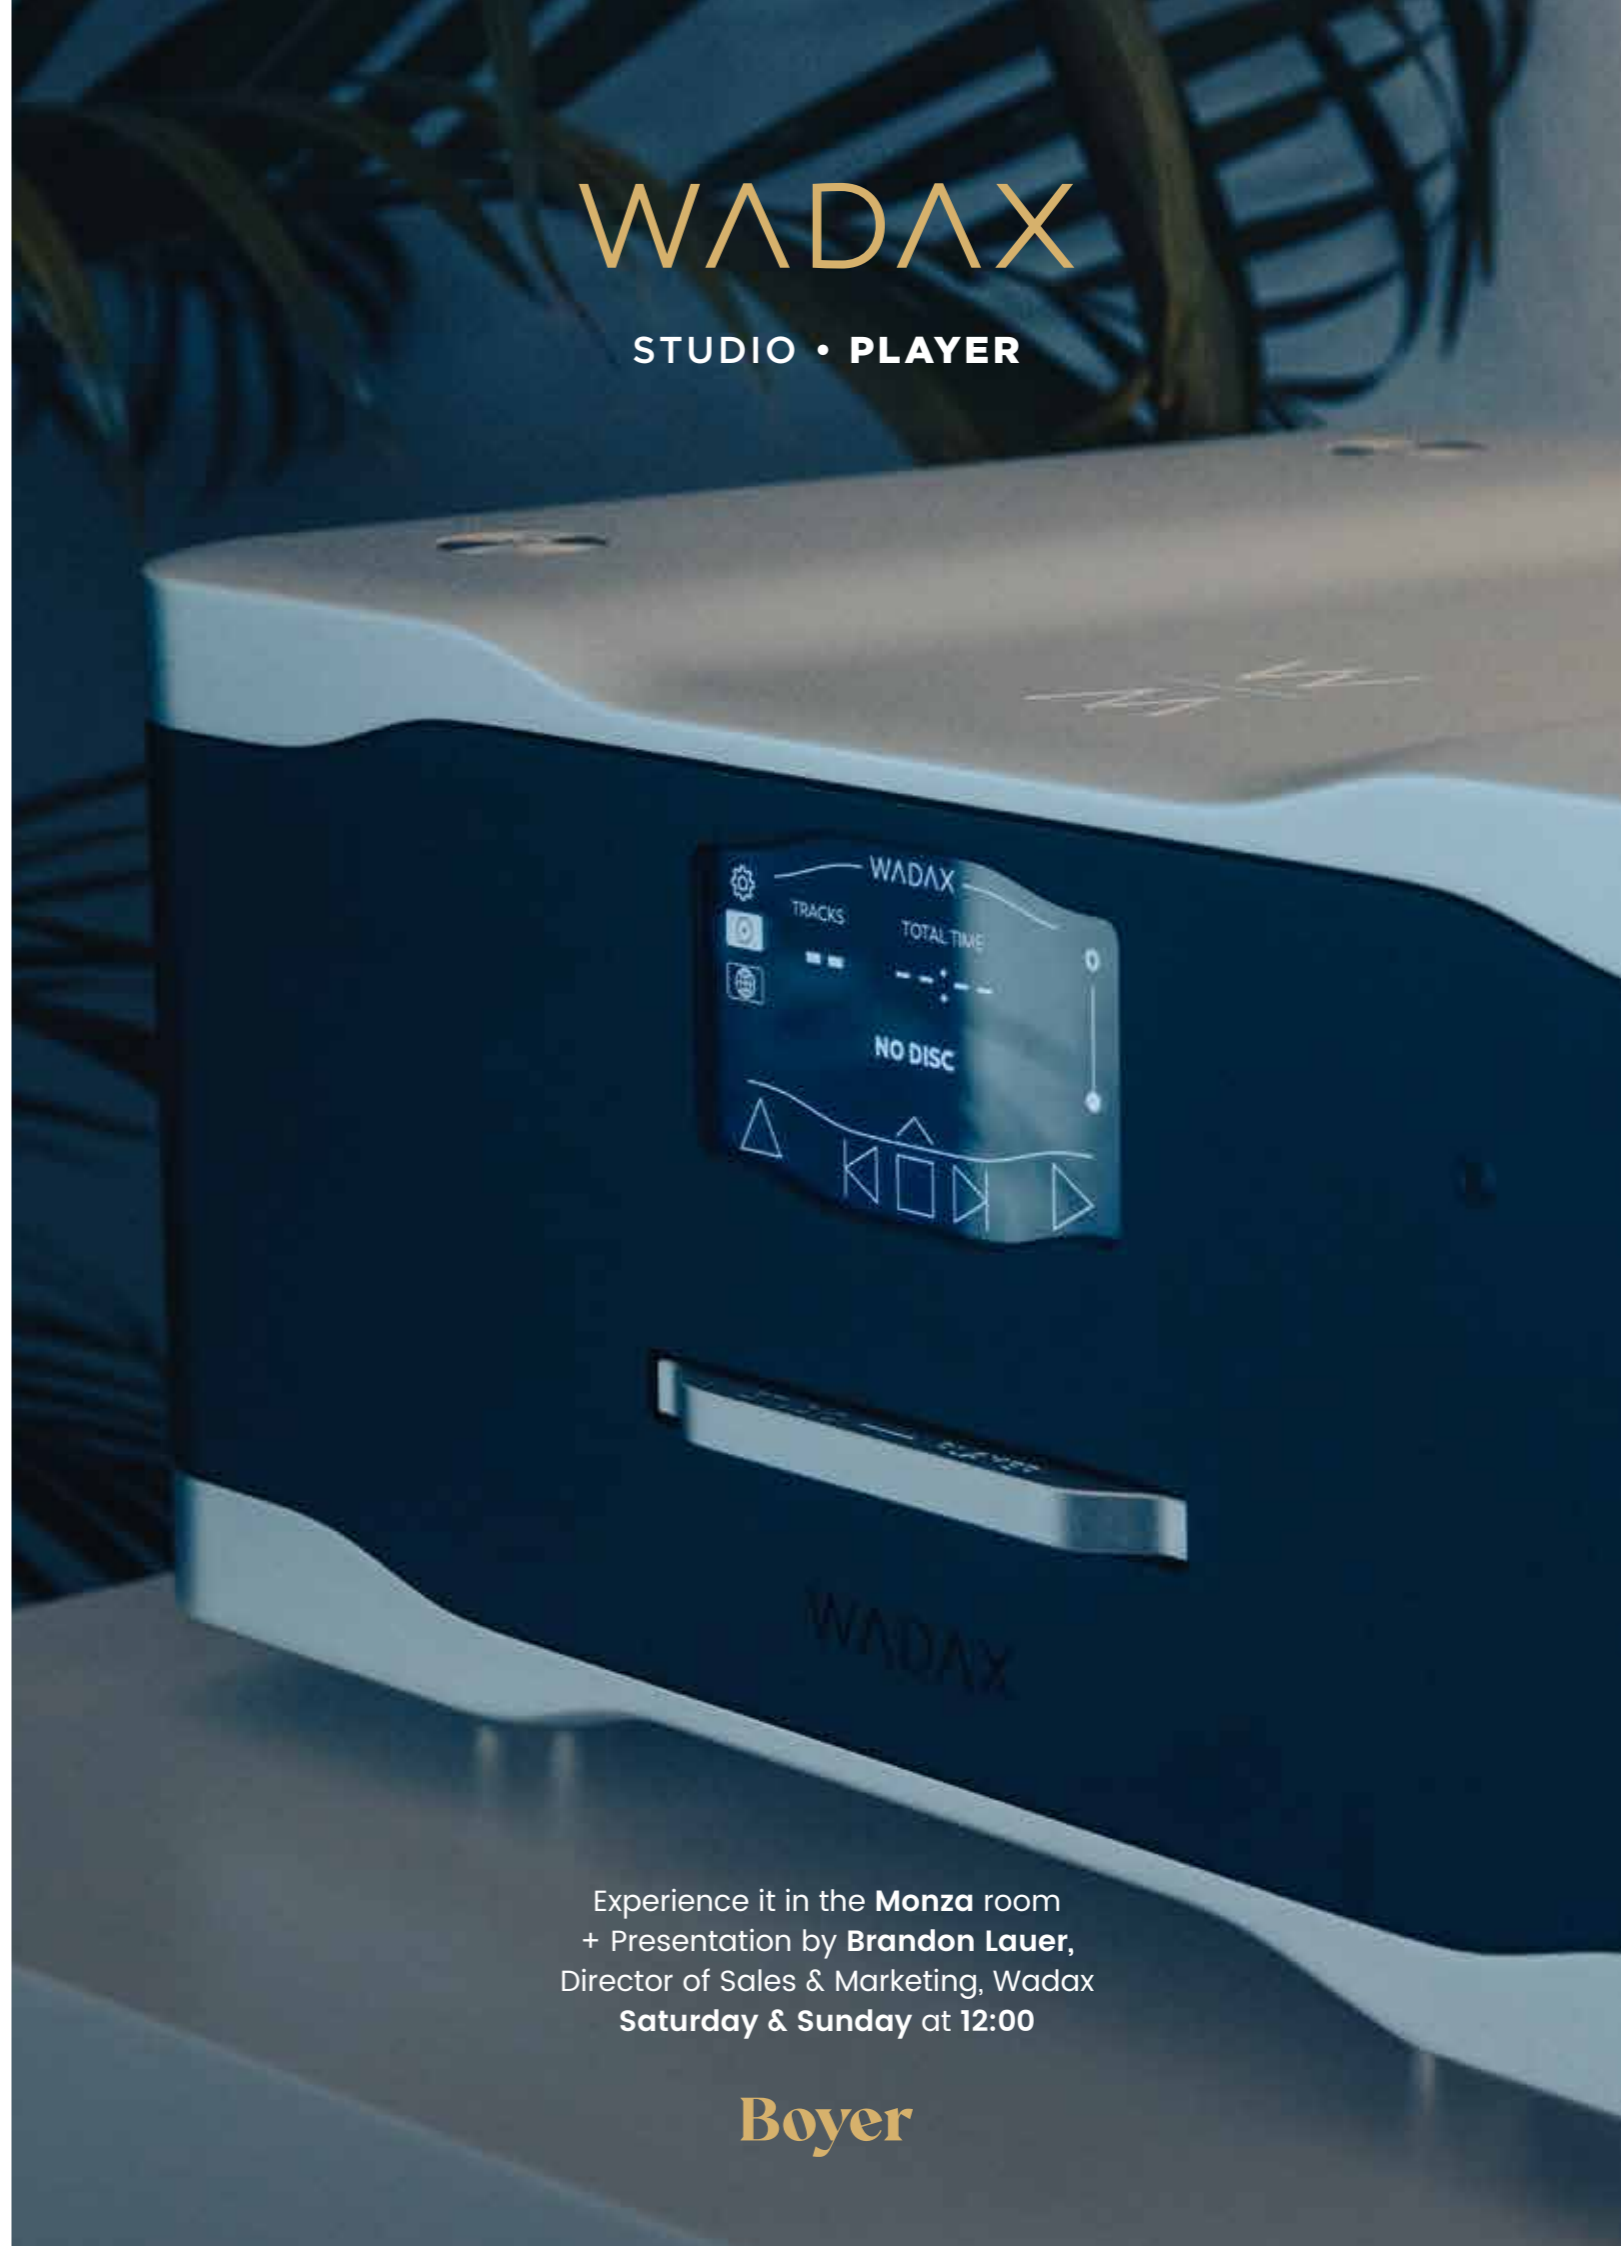

Location: Woodcote
 Web: www.yorkshireav.co.uk
